Rubric for Final Project

	Description	Points Total
Presentation	Slides quality - Appropriate visualizations - Layout isn't too crowded or too sparse - Easy to follow	5
	Delivery quality - Paced appropriately - Used the time efficiently (not too long or too short)	5
GitHub	README - Does it tell me the basic info about the project? - Does it tell me how to navigate the directories? - Does it tell me how to run the code?	5
	File Directory - Is it layed out and labeled in a way that makes sense? - Are things separated into directories?	5
	Code - Are the scripts/notebooks named well? - Is it clear what I'm supposed to run and in what order? - Is the code clear and commented?	5
Write Up	Writing - Grammar is ok and spellchecked - References cited appropriately - Flows and can be understood	5
	Analysis - Is the analysis sufficiently thorough to bring out some real conclusions? - Are the methods appropriate? - Are visualizations of data helpful and do they tell a story?	5

| | Motivation
- Is it explained why this topic is important?
- Is it connected to some other part of the economics or academic literature? | 5 | |
